

APPLICATIONS DES PLOTS DE TERRASSE SUPPORT eco®

Plot réglables de terrasse peuvent être utilisés avec dalle de pierre, dalle de bois, lames bois, caillebotis, plaques composites aux terrasses, terrasses du jardin, balcons, plateformes techniques, autour de la piscine, laboratoires, aux installations industrielles.

USAGE AREAS OF SUPPORT eco® PAVER PEDESTALS

Support eco Paver Pedestals can be used on all walkable terraces, balconies, technical platforms, petroleum facilities, laboratories, resting storehouses, industry facilities, around pools, garden terraces, in any closed and open areas.

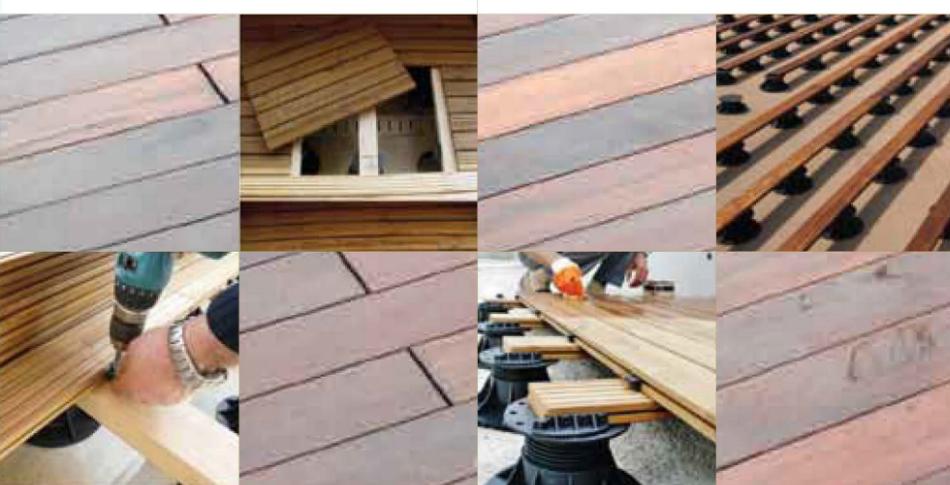

LES AVANTAGES DES PLOTS DE TERRASSE SUPPORT eco®

Les applications des plots de terrasse Support fournit un excellent drainage. L'accumulation de l'eau sur les surfaces sont empêchés. Le démontage de système facilite et économise les travaux d'alterations. Celui-ci assure aux designers un temps large et une liberté de pratiquer.

ADVANTAGES OF SUPPORT eco® PAVER PEDESTALS

No water accumulates at floors and it is not necessary to cover the structures with any kind of material. Avoiding plasters during application can help making corrections. If there is a problem regarding water, heat insulation material or any kind of breakdowns, would help saving time, workmanship and material. The weight of materials is decreased while floor covering becomes easier and faster.
